SUMMARY

A Computer Science student passionate about frontend development and creating engaging user experiences. Skilled in building responsive web applications, integrating APIs, and optimizing performance. Adept at using modern tools and frameworks to develop efficient and scalable solutions.

EDUCATION

Bachelor of Engineering in Computer Science and Technology │ 2021 - 2025 │ CGPA 7.11 (Till VI Semester)
Sri Ramakrishna Mission Vidyalaya Swami Shivananda Higher Secondary School
HSC │ 2021 - 2021 │ 87.25%
SSLC │ 2018 - 2019 │ 85%

SKILLS

Programming Skills: Python, HTML, CSS, JavaScript.
Frameworks/Libraries: ReactJS, Tailwind CSS, Bootstrap.
Databases: MongoDB.
Tools: Git, GitHub, Postman.
API: REST API integration

PROJECTS

E-Commerce Website │ MERN STACK │ TAILWIND CSS │ CLOUDINARY │ STRIPE
- Developed a full-stack e-commerce website using MERN, Tailwind CSS, Cloudinary, and Stripe. Implemented secure authentication, product management, and seamless payments. Optimized UI/UX for responsiveness and performance.

PERSONAL PORTFOLIO │ REACT JS │ TAILWIND CSS
- Developed a fully responsive personal portfolio using React, Tailwind CSS, and Framer Motion for animations. Showcased home, about, projects, and contact sections with Web3Forms integration. Ensured a seamless user experience across all device sizes.

NURSERY WEBSITE │ REACT JS │TAILWIND CSS
- Developed a responsive nursery website frontend with React and Tailwind CSS. Included a home page, "Get Started" section, and a checkout page. Implemented intuitive navigation and engaging UI/UX. Ensured cross-device compatibility for a seamless experience.

INTERNSHIP

Frontend developer intern │ Codesoft Company │ 2025 - Jan
- Completed a frontend development internship at CodexIntern, gaining hands-on experience in React. Developed a **Spotify song downloader, an article summarizer** and **a website with React Router DOM navigation**. Integrated APIs for dynamic data handling and improved functionality. Enhanced skills in building responsive and interactive web applications.

Web developer intern │ Cognifyz Technologies │ Jan 2024 - Feb 2024
- Completed a web development internship at Cognifyz Technologies. Learned and implemented **Tailwind CSS** and **Bootstrap** for responsive design. Developed and optimized web interfaces for better user experience. Gained hands-on experience in building modern and interactive websites. Improved frontend development skills with a focus on responsiveness and UI/UX.

Web developer intern │ Sri Ram Industries │ Aug 2024 - Sep 2023
- Completed Completed a frontend internship at Sri Ram Industries, gaining hands-on experience in web development. Built a basic portfolio using **HTML** and **CSS**. Strengthened foundational skills in responsive design and UI development.

CERTIFICATIONS & ACHIEVEMENTS

- **IBM - Developing Front-End Apps with React | Coursera** | 4weeks | 2024
- **Python for Data Science | NPTEL** | 4weeks | 2024
- **Google Crash Course on Python | Coursera** | 4weeks | 2024
- **Enterprise Design Thinking Practitioner | IBM** | 15hrs | 2022
